

Policy Summary

Dwight School Dubai (DSD) is an inclusive school and welcomes students with Special Educational Needs and Disabilities (SEND) or Students of Determination (SOfD), Students of Concern (SOC), Twice Exceptional students (TE) alongside students identified as Gifted and/or Talented (G&T) and Highly Able (HA), and students with English as an Additional Language (EAL) needs.

We recognise:

- All students have the right to education in a common learning environment
- The learning potential of all students and value student diversity
- The significance of learning theories that support child-centred and differentiated approaches to teaching and learning
- The need to advance inclusive culture at our school

School Section	Whole School
Audience	All staff and Parents

The Dubai Disabilities Strategy has a determined and aspirational vision to create a fully cohesive and inclusive society. One where the rights and access to equitable opportunities for people of determination are assured and protected. Under the leadership of the Executive Council of Dubai, and through the focus of 'My community... a city for everyone initiative, KHDA has the privilege of leading the Inclusive Education taskforce and the development of Dubai's Inclusive Education strategy. (KHDA, 2017).

The wellbeing guiding framework by the KHDA discusses that persuasive international evidence highlights the interdependent relationships between health, wellbeing, and academic achievement. The Dubai Plan 2021 and, most recently, the Dubai Plan 2030, bring wellbeing and education to the forefront of national priorities. The dedicated pursuance of wellbeing is a fundamental feature of successful human development. (KHDA, 2022).

A. RESPONSIBILITY FOR COORDINATION OF QUEST (INCLUSION) PROVISION

Head of Quest:	Dr Neha Sharma
Tel:	042798100
Email:	nsharma@dwight.ae
Inclusion Governor:	Mr. Henning Fries, COO Dwight Schools
Inclusion Champion:	Ms. Rachel Smyth, Head of Upper School

1. Dwight School Quest Philosophy

1.1	Dwight is a co-curricular, non-denominational International Baccalaureate (IB) school that serves the educational needs of the
	national and global community in Dubai.
1.2	Dwight is dedicated to igniting the spark of genius in every child. Kindling their interests, we develop inquisitive, knowledgeable,
	self-aware, and ethical citizens who will build a better world.
1.3	Through an educational model that places importance on global vision, personalised learning and community Dwight has a strong
	commitment to developing globally aware, compassionate, and motivated students who will contribute positively to our diverse
	school community.
1.4	Our goal is to nurture and develop student leaders who show the courage to take intellectual risks using the skills to communicate
	and work effectively with others.
1.5	We seek dynamic, open-minded, and responsible students whose desire to learn is heightened by their engagement with peers and
	our dedicated faculty.

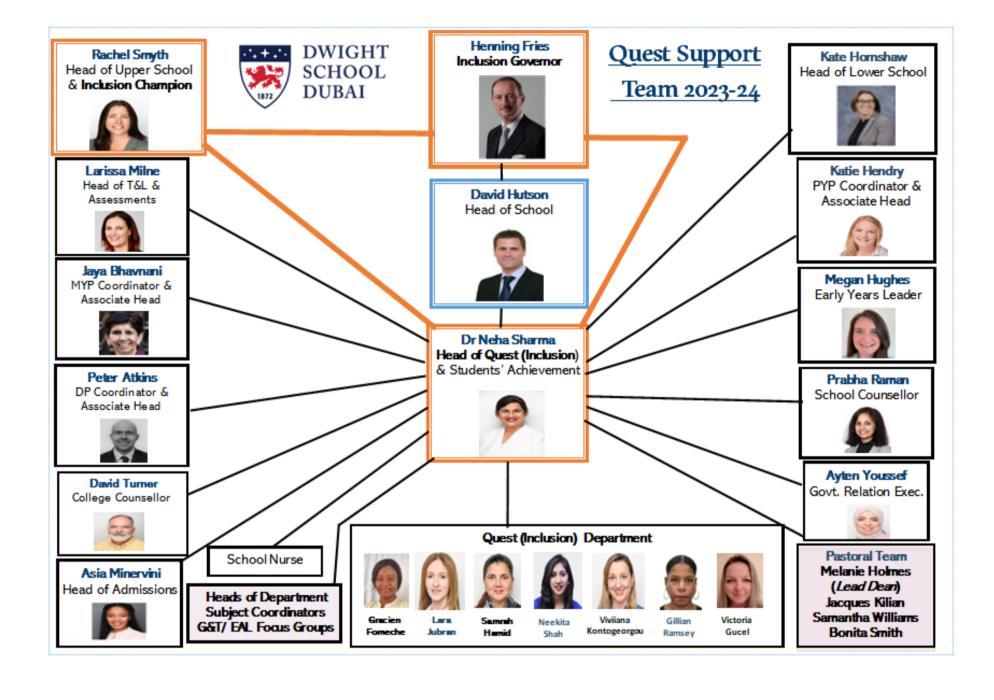

2. School Vision for Inclusion

	1	
2.1	_	nt School Dubai is committed to promoting a safe, supportive and inclusive learning environment that respects diversity, and every student receives a high-quality education.
2.2		
2.2		oundation of the Quest program lies in the belief that all children can learn and reach their full potential given opportunity,
	effecti	ve teaching, and appropriate resources.
2.3	We va	lue student diversity and respect individual learning differences by promoting an inclusive environment that aims to increase
		and engagement in learning for all students by identifying and removing barriers.
2.4 The Quest Program at Dwight School Dubai prepares students to access quality education, particular		
	(SOfD), Students of Concern (SOC), students identified as Gifted and/or Talented (G&T) and Highly Able (HA), Twice
	Excep	tional Students (TE), and EAL (English as an Additional Language) learners so all students have an equal opportunity to
	-	heir potential and be prepared to access an international education to their highest individual academic and social-emotional
	potent	
	_	
2.5	_	uest team works in a collaborative partnership with students, parents, teachers, and external support services to ensure holistic
	develo	opment of every child.
2.6	We believe that every teacher of Dwight School is a teacher of every learner , including requiring Quest support services. The	
	kev va	ilues and beliefs that underpin the school's Quest policy are based on the Assess, Plan, Do, and Review cycle and include:
	2.6.1	Equal value and respect for all
		1
	2.6.2	Recognition of individual differences with special regard for Students on the Quest Registers
	2.6.3	The development of independent skills through the provision of appropriate learning opportunities
	2.6.4	A constant search for improvement in the quality of service provided to all learners including Students of Determination
	2.6.5	Commitment to both the ethical and statutory requirements of legislation including partnership between students,
		parents/carers and professionals
2.7	Scope	of the policy
	2.7.1	This policy applies to all learners in the school who have additional or special educational needs. The policy applies
		equally to all students and their families, whatever their gender, ethnic origin, home language, religion, disability of social
		circumstances.
	2.7.2	The policy also has implications for all our partners in the QUEST process, e.g. governing bodies, parent/carers and both
		statutory and external agencies.

B. DWIGHT DUBAI QUEST (INCLUSION) SUPPORT TEAM 2023-24

C. DSD STRATEGY FOR STUDENTS OF DETERMINATION (SOFD) AND STUDENTS OF CONCERN (SOC)

The aim of this policy is to provide a whole school approach to the identification and provision for students with Special Educational Needs and Disabilities (SEND) or Students of Determination.

Inclusive education is about ensuring access to quality education for all students by effectively meeting their diverse needs in a way that is responsive, accepting, respectful and supportive. This is evident through student engagement and participation in an education programme within a common learning environment with the benefit of targeted support which enables the reduction and removal of barriers that may lead to exclusion (KHDA, 2017).

3. Objectives

3.1	Our objectives are	
	3.1.1	To identify and provide for Students of Determination (SOfD) and Students of Concern (SOC)
	3.1.2	To work within the guidance by the UAE Federal Law 29/2006 and Dubai Inclusive Education Policy Framework (2017)
	3.1.3	To provide support and advice for all staff working with Students of Determination (SOfD) and Students of Concern (SOC), providing a clearly defined framework with a set of procedures which are straightforward to implement. To ensure that all teachers have access to the appropriate initial, in-service, and on-going professional development and support necessary to work effectively in their classrooms with people of determination.
	3.1.4	To ensure that the positions of school and programme leaders are filled by candidates who have, or have the capacity to acquire, the identified knowledge and skills related to operationalising the Dubai inclusive education policy framework. To establish a strong Quest (Inclusion) Support Team (QST) in line with the KHDA expectations.
	3.1.5	To provide support and advice for parents and families of Students of Determination (SOfD) and Students of Concern (SOC). To enhance awareness among our parent community regarding inclusion, understanding and supporting their children's needs.
	3.1.6	To provide a Head of Quest who will work within the Quest (Inclusion) Policy.
	3.1.7	To coordinate and collaborate with outside school support services for psycho-educational assessments, speech therapy, occupational therapy and sensory integration therapy, organising and working with learning support assistants. To establish partnership links with the relevant external agencies and higher education institutions, so that students are effectively supported on transition from one educational establishment to another.

4. Admission process for students of Determination (SOfD)

4.1	Dwight School Dubai is committed to promoting a safe, supportive, and inclusive learning environment that respects diversity,
	ensuring each student receives a high-quality education. The school welcomes students of determination who can access and
	benefit from the school curriculum and programs, with provision provided by the Quest department, to develop the optimum
	potential of every student.
4.2	Any new applicant with identified SEND will be referred to the Head of Quest (Inclusion). The Quest Department will study the
	reports, observe, and assess the child and make appropriate recommendations to the Admissions Department. The final decision
	regarding the new admission will be taken collaboratively between the Head of Lower School or Head of Upper School and the
	Head of School. This decision is based on the assessment of the school's physical and human resources to ensure all students of
	determination have equitable access, alongside peers of their age, in accessing school wide facilities, resources and activities.
4.4	Information on the school's Admissions Process can be found here https://www.dwight.ae/admissions/admission-process
4.5	Our aim is to respond appropriately to each student's individual needs. We therefore ask all parents or carers to be open and honest
7.5	
	when filling in admission documents giving details of a student's individual needs: this will enable us to explore how we can
	provide effective support.
4.6	Priority admission is provided for a student of determination with a sibling already on roll in the school.
4.7	An assessment is made on the entry to the school to ensure that every student has the potential to meet the academic demands of
	the IB curriculum. The assessment criteria include recent school reports, references, a copy of any individual education plan (IEP),
	and a copy of any educational psychology report. Additional assessments may be administered where there is doubt over a
	prospective student's ability to access the curriculum and achieve the school's expected academic standards.
4.8	These additional standardised assessments will be carried out by the Head of Quest and the Quest team, to understand individual
	needs and bridge challenges that a student of determination may face in accessing the curriculum. The school will look for positive
	ways to overcome difficulties and if the child is able to access the curriculum, is of suitable academic standard, and there is a space
	in the grade, the case will be discussed in school and with parents. A lack of formal diagnosis is not a barrier to receiving the Quest
	support services.
4.9	The Head of Quest may observe a SOfD in their previous school setting or meet with the Inclusion Team from the previous school
	to gain additional information, where necessary. Students may be asked to have taster lessons at Dwight School as part of their
	admission process.
4.10	DSD is not equipped to educate students with profound learning challenges, or those with severe comorbid impairments.
	Admissions decisions are made on an individual basis, in which the school reserves the right to decline admission. In such cases,
	the school is pleased to offer advice and support to parents seeking admissions to other schools or centres.

4.11	Facilities : Dwight school is equipped to include SOfD in all aspects of school life including dedicated Quest learning classrooms,
	learning hubs outside classrooms, elevators in all buildings, restrooms for physically handicapped students/staff, clinic, ramps in
	all buildings for easy wheelchair access,etc. in line with the Dubai Universal Accessibility Code.

4.12 Quest students are fully supported by school stakeholders. In exceptional circumstances requiring an enhanced level of provision, any expected additional cost for this provision or the expected support is clearly communicated to the parents. Such cases are enrolled through an individualised service agreement registered with KHDA, when provided by the school. The individualised service agreement and the associated fee to parents is applied when the required provision is not available through standard school service for students of determination.

If parents decide to avail the Individual Learning Support Assistant (ILSA) services through external centres, they will bear the cost of the ILSA and the Case manager from the centre. The professional delivering the individualised service should meet the criteria of either being a therapist or a specialist practitioner holding appropriate and approved qualifications and licensing requirements. The professional should be an appropriately trained and experienced learning support assistant, who would be under the guidance of the school's management, policies, and procedures. In keeping with the Dwight ethos of promoting a sense of community, the Quest program is communicated as an integral part of the school's education provision.

5. Identifying Special Educational Needs (SEND)

5.1	The Dubai Inclusive Education Policy Framework (2017) defines SEND as A need which occurs when a student identified with an
	impairment requires the school to make specific modifications or provide specific supports to prevent, remove or reduce any
	potential disability from occurring and to ensure that the student can access education on an equitable basis and within a common
	learning environment with same-aged peers.
5.2	When determining if a child has SEND, we will refer to the four broad categories of need as described below:
	Communication and interaction
	Cognition and learning
	Social, emotional and mental health difficulties
	Sensory and/or physical needs
- 2	The state of the s

- 5.3 Identification of students with SEND happen through a range of ways including:
 - Admissions procedures
 - Teacher observations and referrals
 - A range of individually administered assessments and screening tests
 - Standardised ability, progress, and attainment tests (CAT4 and MAP)
 - Formative and summative assessments and other anecdotal information
 - Parent referrals, self-referral, and peer referrals
 - Interviews with parents and/or previous school reports
 - standardised assessments of cognitive development and ability administered by psychologists
- In determining if a student should be entered on to the SOC register, the Head of Quest will consider all of the information gathered from within the school about the student's progress, standardised assessment data (CAT4, MAP), internal assessment data, and expectations of progress. This includes high quality and accurate formative assessment, using effective tools, observations, teacher feedback and early assessment materials. Particular indicators of concern may include:
 - a student who makes significantly slower progress than that of their peers starting from the same baseline
 - a student who fails to match or improve upon previous progress rates
 - a student whose gap in attainment, when compared to same-aged peers, widens.
- Behavioural difficulties do not necessarily mean that a student has SEN and will not automatically lead to them being registered as such. However, students who present with challenging behaviour may have unidentified SEN and the school will endeavour to identify these in appropriate ways.
- **5.6** Ongoing identification of SOfD and SOC is based on the following:

The termly data collection for all subjects is used to monitor the academic progress of every student.

The Pastoral teams work closely with the Quest team to identify any potential SEND underlying pastoral issues.

Any member of teaching staff and parent/carer can refer a student to the Head of Quest, if there is an area of the student's learning or wellbeing which is causing concern.

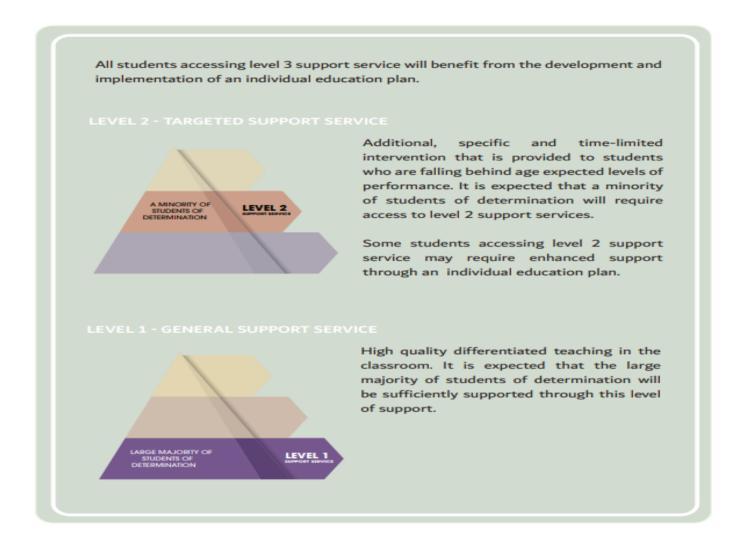

Common barriers to learning	Categories of disability
	(aligned with the UAE unified categorisation of disability)
Cognition and learning	 Intellectual disability (¹including Intellectual disability - unspecified) Specific learning disorders Multiple disabilities Developmental delay (younger than five years of age)
Communication and interaction	5. Communication disorders6. Autism spectrum disorders
Social, emotional and mental health	7. Attention Deficit Hyper Activity disorder 8. Psycho - emotional disorders.
Physical, sensory and medical	 9. Sensory impairment 10. Deaf-blind disability 11. Physical disability 12. ²Chronic or acute medical conditions

6. A Graduated System of Support (SOfD/SOC)

6.1	Quest	provision is education or provision that is additional to or different from that made generally for other students of the same age.
	6.1.1	We recognise that all teachers are teachers of students with SEND and teaching these students is a whole school
		responsibility requiring a whole school coordinated response.
	6.1.2	We recognise that there is a continuum of special educational needs which should be reflected in a continuum of provision and that good practice in special needs goes to the very core of excellent learning and teaching.
	6.1.3	We follow a graduated response for students when high quality teaching, differentiated for the individual, is insufficient
6.2		
0.2		ers are responsible and accountable for the progress and development of the students in their class, including where students support from the Quest department and/or external agencies and/or ILSAs.
6.3	studer Howe	1 Support : At Dwight School, high quality teaching, differentiated for individual students, is the first step in responding to its who have or may have SEND. Individual intervention and support cannot compensate for a lack of good quality teaching. wer, teachers may conclude that the strategies they are currently using with a student are not resulting in the student learning as evely as possible. All SOfD have a Learner Profile developed by the Quest Department in collaboration with all stakeholders.
	6.3.1	In these circumstances, they will consult the Head of Quest and/or Quest teacher to consider what else might be done. The starting point will always be a review of the strategies being used and the way in which these might be developed.
	6.3.2	Evaluation of the strategies in place may lead to the conclusion that the student requires help over and above that which is normally available within the particular class or subject.
6.4		2 Support: When considering whether a student requires further support from the Quest Department, any of the following may
	be evi	
	6.4.1	the student makes little or no progress even when teaching approaches are targeted at an identified area of weakness
	6.4.2	a student shows signs of difficulty in developing literacy or mathematics skills which results in poor attainment in some curriculum areas
6.5		s stage, it is acknowledged that the student needs support additional to high quality teaching differentiated for individual needs
		the classroom.
	6.5.1	Action can be triggered either by referral from teaching or pastoral staff, by parental representation, by the student themselves,
		or by an external agency.
	6.5.2	To establish if a student has learning barriers we will follow the Assess, Plan, Do, Review cycle. Assessments may draw information from across the curriculum including progress data, formative assessment, discussion with teachers, observation of the student in the classroom, discussion with the student. The student's progress will be considered alongside national data and expectations of progress.
	6.5.3	Parents/Carers are contacted and the student's needs are discussed at a meeting – the student is invited to participate in this process as far as possible. We consider the participation, support and partnership of parents/ carers and students to be an important aspect of the level 2 support given to students. The Quest Department develops the Learner Profile for each SOfD/SOC collaboratively with all stakeholders.
	6.5.4	The Learner Profiles lists the students' demographic data, category of learning needs, main barriers to learning, additional
		barriers to learning, areas of interest, areas of strengths, areas of difficulties, performance level (ability and attainment data), learning preferences, classroom accommodations including helpful strategies, any additional assessment information, exam access arrangements and medical needs (if applicable). These Learner Profiles are shared with all the relevant staff members, including specialist teachers. This ensures consistency in support provisions from all teachers.
	6.5.5	Some SOfD merit an Individual Education Plan (IEP) in addition to their Learner Profile. The IEPs have SMART (Specific, Measurable, Achievable, Relevant, Timeframe) goals for Literacy, Math, socio-emotional needs, executive functioning skills and/or independence skills, as deemed necessary. The IEP is a continuous and collaborative process of development, implementation, and review. Whilst the Quest teacher leads on the development of the IEP, the classroom teachers are enabled to implement it, and are held accountable for its impact within the classroom.
	6.5.6	Students may be withdrawn from their foreign language lessons or Islamic lessons for non-muslim students (whole school) or independent work lessons (upper school).
6.6	For st	udents needing Speech and language therapy or occupational therapy, we may draw on more specialised assessments and support
	from 6	external agencies and professionals. Parents, families, children and young people are involved throughout the process. Parents
	and ca	arers have an important part to play in assessment and review processes and their wishes will be taken carefully into account.
6.7	in mal The H have	3 Support: In a small minority of cases when high quality teaching and additional provision are still not supporting a student king progress, the student may have special educational needs of a severity or complexity, which require the support of an ILSA. lead of Quest will utilise the graduated approach to evidence this need carefully. Where such a request is made, the student will demonstrated significant cause for concern, following three consecutive cycles of the 'Assess, Plan, Do, Review' cycle. All its availing of Level 3 support have an IEP in addition to their Learner profile.

7. Support for Social, Emotional and Mental Health (SEMH)

7.1	Depending on need, we support students with SEMH in a range of ways. Initially their needs may be met by their Classroom Teachers
	or Form Advisors and/or their Deans.
7.2	Some students may be referred to the School Counselling Service. A trained counsellor is available in school and referrals can be made by any staff member, parent, or students (self or peer referrals).
7.3	The school counsellor's office or the dean's offices provide the quiet space for students who are struggling during the school day. It is always staffed by the pastoral team who are available to provide emotional support and assistance.
7.4	In some cases a student's needs require additional professional support and parents may be encouraged to request a referral to external specialists. The school counsellor is in touch with the external specialist and shares the relevant helpful strategies with the relevant staff in a sensitive manner
7.5	In case of students on Quest registers needing SEMH support, these helpful strategies are shared within their Learner profile. SOfD having an IEP will include Socio-emotional goals developed in collaboration with the school counsellor.

8. Supporting students at school with medical conditions

8.1 The school recognises that students with medical conditions should be properly supported so that they have full access to education, including school trips and physical education.

9. Student Achievement Monitoring for SOfD/SOC

9.1	All teachers are responsible for monitoring the progress and attainment of all students including the SOfD/SOC. Student achievement		
	forms a part of regular data review meetings with their Head of Department/ Line Managers.		
9.2	The Head of Quest and Quest Teachers monitor and review student progress data on a termly basis. This data review comprises th		
	standardised assessments and internal assessments (MAP, Formative and Summative tests, post intervention assessments, IEP		
	progress data, etc.). Any students' concerns are discussed with their classroom/ subject teachers and the next action steps are discussed.		
	Students and Parents form a part of these discussions. Term meetings are held with parents for SOfD with an IEP.		

10. Criteria for exiting the SOfD/SOC registers

10.1	It is important to keep the student's self-esteem and personal, social, emotional, and academic progress in mind when considering the
	future intervention and/or support envisaged. A student will be withdrawn from the Quest register when academic attainments are on
	par with a peer group or in line with the high expectations. The student may then be entered on the Level 1 register for monitoring
	purposes. Exiting the inclusion programme will be a collaborative decision made by the Leadership team, Head of Quest, Homeroom
	/ Subject teacher, Quest teachers, parents, students, and any other therapist; and will usually be taken at the end of the school term or
	year. SOfD shall remain on the register for monitoring for the remainder of the school career if there is a diagnosed learning disability.

D. DSD STRATEGY FOR GIFTED AND/OR TALENTED (G&T), TWICE-EXCEPTIONAL STUDENTS (TE) AND HIGHLY ABLE (HA) STUDENTS

It is a wise man who once said that there is no greater inequality than the equal treatment of unequals. - Felix Frankfurter, US Supreme Court Justice (1939-1962).

Dwight school is committed to providing high quality holistic education in a supportive, caring, and collaborative learning environment. Dwight's legacy of innovation and personalised learning dates all the way back to 1872. Every child has a spark of genius. Our goal is to nurture that potential to help our students learn and grow. We do this through our Personalized Learning pillar. Whether connecting a student with an exceptional mentor, designing tailor-made enrichment, crafting a special study abroad opportunity, or providing a novel program or tutorial, Dwight goes out of its way to recognize and foster each student's gifts and talents.

OUR DEFINITION OF G&T

The term giftedness refers to 'a student who is in possession of untrained and spontaneously-expressed exceptional natural ability in one or more domains of human ability.' These domains will include intellectual, creative, social, and physical abilities. In the case of a gifted student, whilst exceptional potential will be present, they may underachieve.

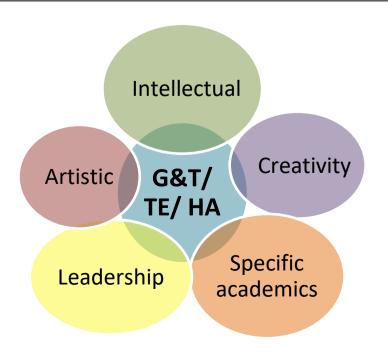

The term talented refers to 'a student who has been able to transform their 'giftedness' into exceptional performance'. Talented students will always demonstrate exceptional levels of competence in the specific domains of human ability (UAE School Inspection Handbook, 2015-16).

11. Objectives

11.1	Our objectives are	
	11.1.1	To ensure that all Gifted and/or Talented (G&T) students, Twice Exceptional students (TE) and those identified as Highly
Able (HA) are clearly identified and are known to all staff.		Able (HA) are clearly identified and are known to all staff.
11.1.2 To ensure that the school caters for the needs of these students within and beyond the curriculum. To		To ensure that the school caters for the needs of these students within and beyond the curriculum. To ensure that the more
		able students have a high level of achievement with learning attributes that ensure personal success and benefits to the
		wider community.
	11.1.3	To provide support and advice for all staff working with more able students, providing a clearly defined framework with
		a set of procedures which are straightforward to implement. To ensure that all teachers have access to the appropriate
		initial, in-service, and on-going professional development and support necessary to work effectively in their classrooms
		with our able learners.
	11.1.4	To provide inspiration to other students through appropriate student role models. To raise aspirations of all students
		through a school ethos of high achievement and challenging learning opportunities.

12. Identifying Gifted and/or Talented (G&T) students, Twice Exceptional students (TE) and Highly Able (HA) students

12.1	Identification of G&T/TE/HA students happen through a range of ways including:		
	 Teacher observations and referrals 		
	 Gifted and/or talented screening checklists (GATES) 		
	 Student interest surveys, self-reports, and student interviews 		
	 Standardised attainment tests (CAT4 and MAP) 		
	 Identification of SEND (explained in relevant section) for TE 		
	 Anecdotal information, especially about Arts, IT or Sports 		
	Completed behaviour checklists		
	 Interviews with parents and/or previous school reports for new admissions. 		
	 standardised assessments of cognitive development and ability, administered by psychologists 		
12.2	Identification of more able students is an on-going process throughout the academic year. The registers are updated once a term.		
	The G&T/TE/HA register is developed by the Head of Quest and reviewed by the Head of School and Inclusion Champion to		
	determine whether the student merits the G&T/HA programme.		

12a. Gifted Education Programming Standards (GEPS)

Based on the NAGC 2019 Gifted Education Programming Standards (GEPS), Dwight School endeavours to offer the academic services for the deserving gifted students following these general principles:

Learners are defined as having gifts and talents as Giftedness is a dynamic concept Identification
procedures should be
equitable to include
learners from diverse
backgrounds

GEPS should be centered on student outcomes rather than gifted practices

Gifted provisions are a responsibility of all educators

Gifted services must be available to learners across all learning environments commensurate with their interests, needs and abilities.

13. Support Provisions for Gifted and/or Talented (G&T) students, Twice Exceptional students (TE) and Highly Able (HA) students

3. Supp	ort Provis	sions for Gifted and/or Talented (G&T) students, Twice Exceptional students (TE) and Highly Able (HA) students		
13.1	Dwight	School aims to form effective partnerships with parents so that students with special gifts and talents are understood, valued,		
	and included in the school community, where they can make friendships with students with similar interests and abilities.			
13.2	All G&T/TE students have individual Learner Profiles that details the students' demographic data, area of giftedness, areas of			
	interest	, areas of strengths, areas of difficulties, performance level (ability and attainment data), learning preferences, extra curricular		
	opportu	unities, VIAcharacter traits, useful behaviour characteristics across the intellectual, specific academic abilities, creativity,		
	leaders	hip, and artistic talents that can be used for personalisation of their learning, classroom accommodations including helpful		
		es, any additional assessment information, exam access arrangements and medical needs (if applicable). These Learner		
	U	s are shared with all the relevant staff members, including specialist teachers to ensure consistency in support provisions		
	from teachers.			
13.3	Individual teachers in the school support the identified G&T/TE/HA students by providing them with challenging lesson objectives.			
	Additional services include assigning students to individual projects and research studies, specialised educational tours, attending			
		s, debates, educational seminars, participating in competitions, opportunities to use problem solving skills, programs of		
		hip, communication and other enrichment opportunities involving sports, music, art and/or drama.		
13.4		CHMENT: The Head of Quest is responsible for the enrichment provisions for G&T/TE/HA learners beyond the classroom.		
		ual departments or teachers may run the after-school clubs for G&T/TE/HA students in their subject areas.		
13.5		AGC GEPS (NAGC, 2019) consists of research-backed learner outcomes formulated within the following six standards (S1-		
10.0	S6), na			
	13.5.1	Learning and development : DSD understands the variations in learning and development in cognitive, affective, and		
		psychosocial areas between and among individuals with gifts and talents, creating learning environments that encourage		
		self-awareness and understanding of cognitive growth and socio-emotional development in all settings.		
	13.5.2	Assessment: Assessments provide information about identification and learning progress for students with gifts and		
		talents.		
	13.5.3	Curriculum planning and instruction: DSD teachers apply evidence-based models of curriculum and instruction related		
		to students with gifts and talents and respond to their needs by planning, selecting, adapting, and creating curriculum that		
		is responsive to diversity. Educators use a repertoire of instructional strategies to ensure specific student outcomes and		
		measurable growth.		
	13.5.4	Learning environments: Learning environments foster a love for learning, personal and social responsibility,		
		multicultural competence, and inter-personal and technical communication skills for leadership to ensure specific student		
		outcomes.		
	13.5.5	Programming: DSD educators use evidence-based practices to promote (a) the cognitive, social-emotional, and		
		psychosocial skill development of students with gifts and talents and (b) programming that meets their interests, strengths,		
		and needs. Educators make use of expertise systematically and collaboratively to develop, implement, manage, and		
-	10 7 6	evaluate services for students with a variety of gifts and talents to ensure specific student outcomes.		
	13.5.6	Professional development: It is obligatory on behalf of the educators to engage in continuous professional development,		
		keep up to date with research-based practices, be responsive to personal and cultural progressions and adhere to policies,		
12.6	CDADI	rules and standards of ethical practices.		
13.6		K OF GENIUS SCHOLARSHIP PROGRAM: The Spark of Genius Scholarship Program will empower participating		
	students at Dwight School Dubai to develop competences, skills, and attributes, at a higher level, and in doing so provide valuable			
	service to the school and wider community. Benefits to the G&T/HA students participating in this program, include:			
	Recognition of a young person's exceptional ability or talent, thus a place in the Spark of Genius Scholarship Program is prestigious.			
	Educational opportunities within and beyond the curriculum, which may also strengthen University applications and future			
	pathways. DSD has developed this program to create an ethos and learning environment that engages and inspires able learners,			
	recogni	sing and developing exceptional ability and talent (Spark of Genius), and a vision to attract and retain students with passion,		
		ty, and commitment to learning and providing service to the school community.		

14. Monitoring Student Achievement of the Students on the G&T/TE/HA registers

14.1	All teachers are responsible for monitoring the progress and attainment of all students including the G&T/TE/HA. Student			
	achievement forms a part of regular data review meetings with their Head of Department/ Line Managers.			
14.2	The Head of Quest monitors and reviews student progress data on a termly basis. This data review comprises the standardised			
	assessments and internal assessments (MAP, Formative and Summative tests). Any students' concerns are discussed with their			
	classroom/ subject teachers and the next action steps are discussed. The Head of Quest meets with the students to discuss their needs			
	and address any concerns regarding their achievement data.			

15. Criteria for exiting the G&T/TE/HA registers

15.1	It is important to keep the student's self-esteem and personal, social, emotional, and academic progress in mind when considering the
	future participation and/or support envisaged. A student will be withdrawn from the G&T/TE/HA register when student progress
	drops below expectations, or the identification procedure shows the need to rethink their eligibility. Before removing the student from
	the G&T/TE/HA registers, they will be offered support for one term/academic year by the relevant teachers. The G&T/TE student
	may then be entered on the HA register for monitoring purposes. Exiting the Quest programme will be a collaborative decision made
	by the Leadership Team, Head of Quest, Homeroom / Subject teacher, Parents, and Students, and will usually be taken at the end of
	the school term or year.

E. DSD STRATEGY FOR STUDENTS WITH ENGLISH AS AN ADDITIONAL LANGUAGE (EAL) SUPPORT

As an IB World School, language acquisition and development are important and valued components of the curriculum. The school's language of instruction is English so, upon admission, students must meet the English language proficiency level as per the grade requirement. Students, for whom English is an additional language, may be required to participate in the EAL program offered by the Quest department.

16. Objectives

16.1	The Quest team provides a range of support for students with English as an additional language (EAL) needs:	
	16.1.1	Clearly defined identification and exit process for students requiring (EAL) support.
	16.1.2	A level-based approach for planned assessment, intervention, and support for all students.
	16.1.3	Student and parent/s participation and partnership in the development of personalised support.

17. Support Provisions for students with English as an additional language (EAL) needs

17.1		ima of admission, language support may be recommended for a new student based on the student's language needs, teem's		
17.1	At the time of admission, language support may be recommended for a new student, based on the student's language needs, team's interaction, past records, and information shared by the parents.			
17.2				
17.4		urning students, the Quest teachers complete the language assessments at the end of the academic year to determine the		
15.0		ity of support needed.		
17.3		ication and Assessment: All students are assessed by EAL specialists using the WIDA Screener at the beginning of the		
		ic year to determine their levels of language skills across the speaking, reading, listening, and writing.		
		apon the WIDA score, students are assigned to an English Proficiency Level (Beginner, Intermediate, Advanced). This score, with the CATA and MAR date collected by the Quest teacher, is used to determine appellment in the Quest Program. Students		
		with the CAT4 and MAP data collected by the Quest teacher, is used to determine enrollment in the Quest Program. Students ore at level 3 or below will be required to participate in the program. Those who score at level 4 may be asked to participate		
		program. Students who score at levels 5 and 6 are not enrolled and are considered to have adequate English skills for		
	-	ation in mainstream classes for all instruction.		
		dents are assessed using the WIDA Model at the end of the academic year to determine the support envisaged for the		
		ent academic year. The Quest department uses additional assessments like WELLCOMM to gauge the effectiveness of		
		ge Interventions on a regular basis.		
	Note: Dwight School has a whole school approach to supporting students with Verbal Deficit (VD)			
		hance their reading and reasoning, vocabulary, spellings, grammar and writing skills.		
		al Deficit is the difference between the Nonverbal and Verbal batteries of the CAT4 test		
$[VD \ge 15 (CAT4: NV - V)].$				
17.4	The language support is provided using the WIDA Framework, Phonics programme, resources from Bell Foundation, Twinkl,			
		s, and other resources. The 2020 WIDA supports the design of standards-based educational experiences that are student-		
centred, culturally and linguistically sustaining, and responsive to multilingual learners' strengths and needs (illustration				
17.5		lents with EAL needs have Learner profiles developed by the Quest Department.		
17.6		s on the EAL register receiving Level 2 support (Beginner and Intermediate) are provided English Language Support using		
	the WIDA English Language Development (ELD) Standards Statements:			
-	17.6.1	ELD Standard 1: English language learners communicate for Social and Instructional purposes.		
	17.6.2	ELD Standard 2: English language learners communicate information, ideas, and concepts necessary for academic		
-		success in the content area of Language Arts.		
	17.6.3	ELD Standard 3: English language learners communicate information, ideas, and concepts necessary for academic		
		success in the content area of Mathematics.		
	17.6.4	ELD Standard 4: English language learners communicate information, ideas, and concepts necessary for academic		
		success in the content area of Science.		
	17.6.5	Professional development: It is obligatory on behalf of the educators to engage in continuous professional development,		
		keep up to date with research-based practices, be responsive to personal and cultural progressions and adhere to policies,		
		rules and standards of ethical practices.

EQUITY of Opportunity and Access	INTEGRATION of Content and Language
COLLABORATION among Stakeholders	FUNCTIONAL APPROACH to Language Development

18. Monitoring Student Achievement of the Students on the EAL registers

18.1	All teachers are responsible for monitoring the progress and attainment of all students including those with EAL needs. Student		
	achievement forms a part of regular data review meetings with their Head of Department/ Line Managers.		
18.2	The Head of Quest and the Quest Teachers monitor and review student progress data on a termly basis. This data review comprises		
	the standardised assessments and internal assessments (MAP, Formative and Summative tests, post intervention tests, WIDA		
	assessments). Any students' concerns are discussed with their classroom/ subject teachers and the next action steps are discussed.		
	Students and Parents form a part of these termly review meetings.		

19. Criteria for exiting the EAL registers

1	17. Criteria for exiting the EAL registers			
	19.1	During the academic year, the Quest Teacher conducts regular assessments to gauge the language levels of the students on the EAL		
		registers. Based on these assessments, the Quest teacher and the homeroom teachers determine if the student is capable of functioning		
		autonomously and successfully in the regular instructional classroom, as well as meeting the grade level requirements, and is ready		
		to exit the programme. Then the exit process is followed.		
		Students can exit the program and fully participate in the class, when they attain at or near Level 5 on the WIDA language assessment		
		in all areas of Speaking, Writing, Listening and Reading (overall score 5). Individual cases where a student scores below Level 5 in		
		all assessments but is still recommended for exit from the program, will be reviewed collaboratively by the homeroom / English		
		teacher, Quest teacher, Head of Quest, parent, and the student.		

F. COMMON COMPONENTS FOR STUDENTS ON THE QUEST REGISTERS

20. Managing student needs on the Quest registers

20.1	When a student has been identified as a Quest student (SOfD/SOC/TE/G&T/HA/EAL):		
	20.1.	The Head of Quest will develop the Quest registers for the whole school and distribute this information with all the staff members at the beginning of the academic year. When any student gets identified as a Quest student during the academic year as a result of new admissions and/or referral process, relevant staff are informed and the registers are updated. These registers are saved on the shared drive accessible to all staff members.	
	20.1.	Where additional information is needed, the student may be assessed using a range of standardised testing, with the agreement of the student and their parents/carers.	
	20.1.	Any changes to the student's status on the Quest Register will be made in consultation with teachers/parents/carers.	
20.2	Our teachers are trained to understand the needs of each student in their class so that they can plan to meet those needs appropriatel Quality First Teaching Strategies (SOfD/G&T/EAL)		
	20.2.	A CPD programme of Quest specific sessions run throughout the year for the staff including the LSAs.	
20.3	Teachers hold the responsibility for evidencing progress according to the expected outcomes described in the school policies, but the Head of Quest and appropriate Quest Staff are responsible for reviewing the overall progress made by the students on the Quest registers. This will be reviewed termly.		
20.4	INCLUSIVE ACCESS ARRANGEMENTS: Adjustments for some students may involve access arrangements for internal and external examinations. Requests for inclusive access arrangements for the IB MYP eAssessments and the IBDP examinations will be submitted six months prior to the examination along with supporting documentation. A formal psycho-educational evaluation or assessment by the Head of Quest will be a prerequisite for a student to access accommodations. It is the responsibility of the Head of Quest and the MYP/DP coordinators to ensure that the documentation required is completed and submitted to the IBO in order to gain these adjustments.		
20.5	Parents can meet with the Head of Quest or any Quest staff member with prior appointment any time of the term. The Quest staff understand the sensitivity of the circumstances and make themselves available to meet with parents whenever they are not teaching. The contact details of the Quest teachers are always shared with the relevant parents at the beginning of the academic year. In addition, parents can meet with Quest staff during IEP meetings, data review meetings, and/or parent teacher conferences. Also, there are specific days allocated for parents to meet the Quest staff during Coffee mornings or EduTalks.		

21. Supporting Students and Families

21.1	At Dwight School we believe that the best outcomes are achieved where the school and its parents/carers work in partnership. To support this aim the school will:	
	21.1.1	Promote mutual respect as the basis for communication between the school and families. This should include sensitivity
		to family's needs, desires and understanding and allow an open and honest relationship to develop.
	21.1.2	Work closely with parents/carers to ensure they understand the individual needs their child has including the implications of these needs, how the School will support the child and what they can do to support the child at home.
	21.1.3	Communicate regularly with parents and carers informing them of progress, any concerns which arise and any process
	21.1.3	requirements such as annual reviews. We will encourage families to be actively involved in relevant training/planning appropriate to their child's needs.
	21.1.4	Ensure that all communication is in an accessible form.
	21.1.5	Support students, parents and carers through any transition periods e.g. primary to secondary, secondary to further
		education or work opportunities and/or transition to other schools. Dwight School Career Advisor is a staff member
		looking after the transition needs of high school students.
21.2	The school will continue to support all students, including students of determination. Currently, the IB PYP, MYP, and DP are the	
	school's	authorised and licensed education programs which are both rigorous and academic. At the end of each program, students'
	needs w	ill be evaluated on a case-by-case basis to assess their readiness to meet the academic demands of the next stage of the
	curriculu	m. In addition, it is important for the school and parents to work together to be able to ensure that all students graduate by
	passing t	the IB Diploma Programme or Certificate with 24+ points and avoid any failing conditions.
21.3	Parents a	and carers are encouraged to make contact with the Head of Quest at any time during the academic year if they have any
	question	s or concerns.

22. Monitoring and Evaluation of Quest Services and Provisions

22.1	At Dwight School, the Quest services and provisions are reviewed on a regular basis through:	
	 Lesson observations, including observations of Learning Support Assistants and their impact in lessons 	
	Termly and Annual Review Meetings	
	Parents' Evenings	
	• Weekly Quest Department meetings. The Inclusion Champion and the Inclusion Governor attend these meetings once a month.	
	Weekly line management meetings between Head of Quest and the Inclusion Champion (Head of Upper School)	
	Weekly meeting between the Head of Quest and Head of Lower School	
	 Monthly meetings between the Head of Quest, Inclusion Champion, and the Inclusion Governor 	
	Weekly meetings with the School Counsellor	
	 Weekly SLT meetings as the Head of Quest is a Senior Leader of the School 	
	Weekly meeting with the Head of Admissions	
	 Specific G&T and EAL focus group meetings on a termly basis 	
22.2	The variety of evaluation and monitoring arrangements means that this is an active process of continual review and improvement of	
	provision for all students.	

23. Training and Resources

23.1	Staff receive annual updates on QUEST as part of INSET training, as well as specific guidance on working with key students including	
	SOfD.	
23.2	The Head of Quest is a part of the active Inclusion Whatsapp group in the UAE.	
23.3	Learning Support Assistants attend external courses as appropriate, as well as ongoing training provided by the Head of Quest and the	
	Quest staff members.	

24. Storing and Managing Information

24.1	Information on SOfD is stored securely in confidential files in the Head of Quest's Office and also in restricted files on the school	
	drive.	
24.2	Additional information on SOfD is also held on ISAMS	
24.3	SOfD files are held in a secure archive when the students have left the school for a period of 5 years
